

**To: NCCU Summer Camps**

**From: NCCU Student Health and Counseling Services**

**Student Health and Counseling Services (SHCS) is available to all Summer Camp Programs on campus. The fee is \$25.00 per camper per camp; this fee must be paid in advance of the camps start date. This fee does not include the cost for any prescription medication, laboratory test or services provided pursuant to SHCS referral. This fee will cover the camper for the duration of the camp dates. Also, a Report of Medical History Form must be completed and signed by the camper's legal custodian, which is generally the parent. The Report of Medical History Form also gives SHCS authorization to treat.**

**Please be advised that medical care and advice is limited to basic care for minors. Serious medical conditions will be referred to the camper's primary doctor.**

**Please contact Kimberly Dobson @919-530-7336 for additional information.**
