Key Things to Remember

- Only use the Department Deposit Form for Cash, Coins, Checks, and Money Orders. The Cashier's Office will notify the Department regarding any funds received electronically.
- Nearly all transactions will require the use of the entire FOAP string however there is an extremely small percentage of transactions that will only require the use of a Fund & Acct number. A rule to know is that if you are using a Prog # then you should be using the entire FOAP string for the transaction.
- Nearly all deposits should be placing funds in a Revenue Account which should have a 5XXXXX series number. An exception for this rule would be for placing refunds back into an expense Account.
